DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicants' attorney Mr. W. David Lee on 7/9/2004.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 15, of the abstract, lines 1-2, "An improved device for dispensing fluid medicines from both physiological and compliance perspectives" has been deleted and --A device for dispensing fluid medicine includes a housing having an opening leading to an interior, a first aperture, and a second aperture. The device also includes a plastic dropper bottle at least partially disposed in the interior through the opening. The bottle has a container holding fluid medicine to be dispensed and a nozzle with a third aperture in fluid communication with the container. The device further includes a drop counter switch disposed in the housing and a lever rotationally coupled to the housing. The lever has a first flange disposed in the first aperture for causing the bottle to dispense fluid through the third aperture. The lever also has a second flange disposed in the second aperture for operative engagement with the drop counter switch upon the

first flange causing the bottle to dispense fluid through the third aperture-- has been inserted.

Allowable Subject Matter

2. Claims 1-3 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious a dispensing device for fluid medicine in combination with the other claimed limitations of claim 1:

"a lever rotationally coupled to said housing and having a first flange disposed in said first aperture for causing said bottle to dispense said fluid through said third aperture and a second flange disposed in said second aperture for operative engagement with said drop counter switch upon said first flange causing said bottle to dispense said fluid through said third aperture".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cogger 6,524,287, Cogger 6,506,183, Py 5,401,259, Heck 4,678,105 and Py 5,133,702 disclose other types of dispensing device.
